

REC110Y1: RECYCLING ELECTRONICS

Look around your office for a moment... Do you see any old electronics laying around? That old computer; the box of used up batteries and the old printer cartridges don't really have to be part of your office decor. You can recycle them easily with U of T's Facilities and Services Department.

We all know how to recycle paper, glass and plastics... but what about electronics? They can be toxic to the environment and can't be just tossed out.

To help you de-clutter your office and get rid of the old electronics the responsible way, take a look at these tips.

Recycling:
946-5711

BATTERIES

All types of household and electronic batteries are accepted at the [following locations](#).

PRINTER CARTRIDGES

Each cartridge has a return label. Return to manufacturer first or alternatively, request to be placed on Evergreen's pick-up list for regular pick-ups. Most companies that sell cartridges will also provide free recycling.

SMALL ELECTRONICS

Place your small electronics in a box and call recycling to arrange a pick-up. This service is free for small quantities.

CABLES

Cables can be treated as small electronics and placed in a box for a scheduled pick-up. Cables should not be placed in the garbage.

COMPUTERS AND HARDWARE

Single units can be scheduled for a free pick-up or they can be dropped off at the [Swap Shop](#).

LARGE ELECTRONICS AND LARGE QUANTITIES

Items can be dropped off at the [Swap Shop](#) or a service order can be made for a pick-up. Fees apply for large quantities.
