**1)** DROP DOWN SYMBOL FOR MENU LINKS WITH CHILD PAGES   All menu links with child pages should have the drop down symbol (triangular) instead of the grey square

URL   :   main.its.utoronto.ca

Menu links **without** child pages should remain with this symbol.

Menu links **with** child pages should have a drop down symbol.

2) (COLLAPSABLE MENU) CHILD PAGE MENU LINKS SHOULD BE HIDDEN UNDER PARENT PAGE LINKS BY DEFAULT - Child page links should become visible only after you click on the parent link.
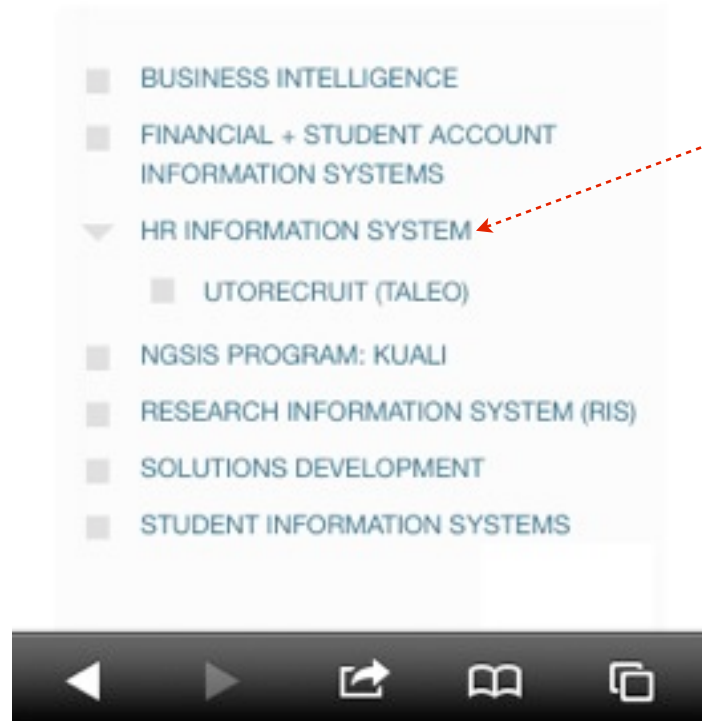

CURRENT APPEARANCE - DEFAULT
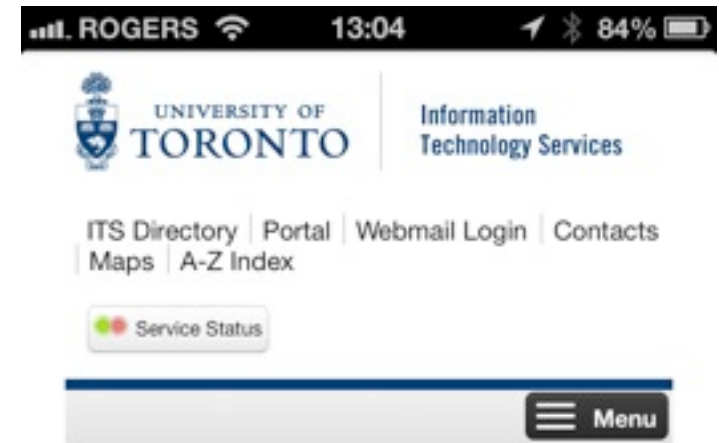

URL : main.its.utoronto.ca/its-units/easi/

Parent Link opened

PLEASE NOTE: CLICKING ON PARENT LINKS DOES 2 THINGS:

A) Opens to reveal or hide nested child links if any
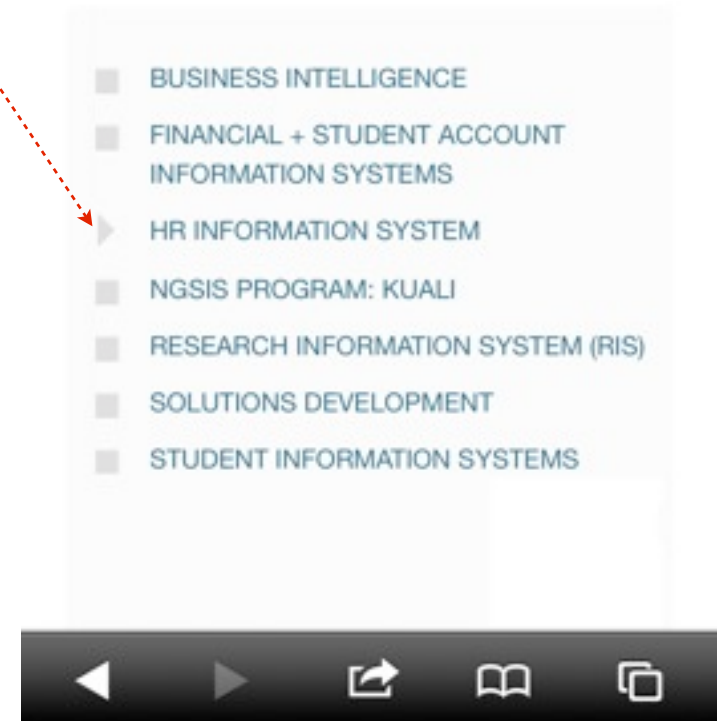

B) Loads the associated page in the content area

DESIRED DEFAULT APPEARANCE
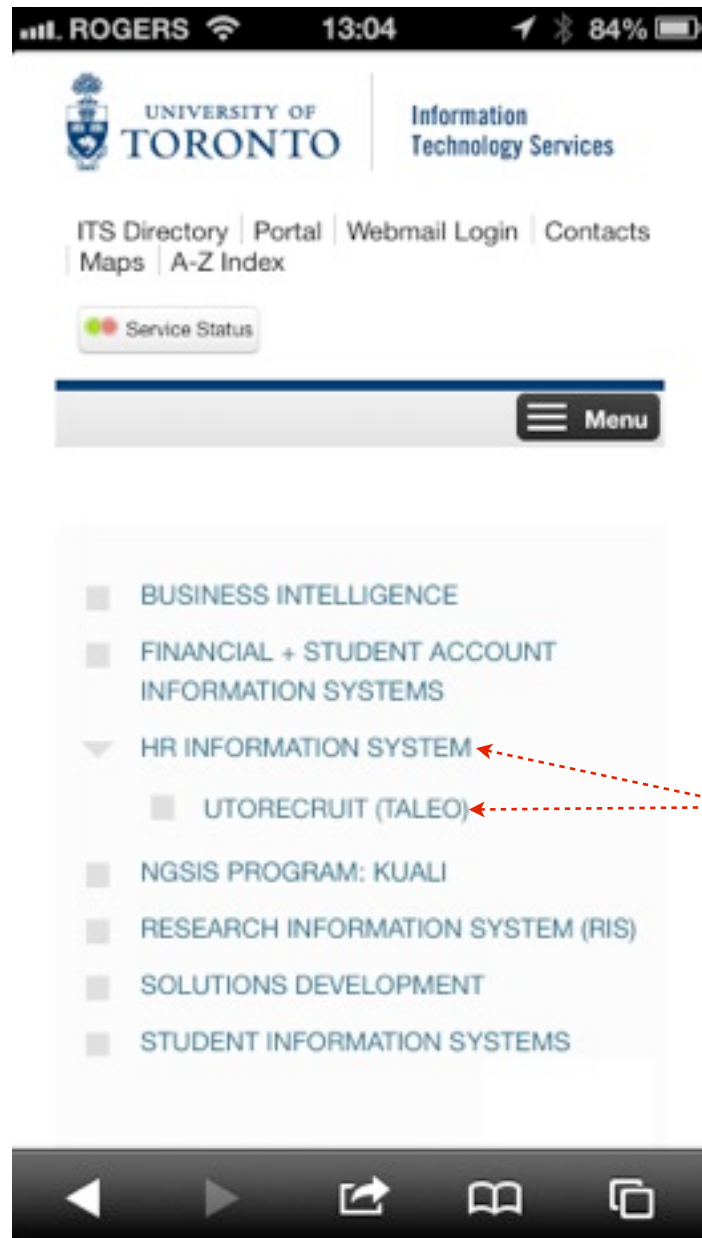

URL : main.its.utoronto.ca/its-units/easi/

Parent Link closed

3) WHEN A USER CLICKS ON A PARENT OR A CHILD LINK, THE USER IS REDIRECTED TO THE VIEW SEEN BELOW ON THE RIGHT (This is done by the use of **anchor points** to the titles with the content below) When the user scrolls up, they will see the secondary menu, the primary menu and the header information. **SECONDARY MENU WITH ANCHOR POINTS IS FOR MOBILE ONLY**
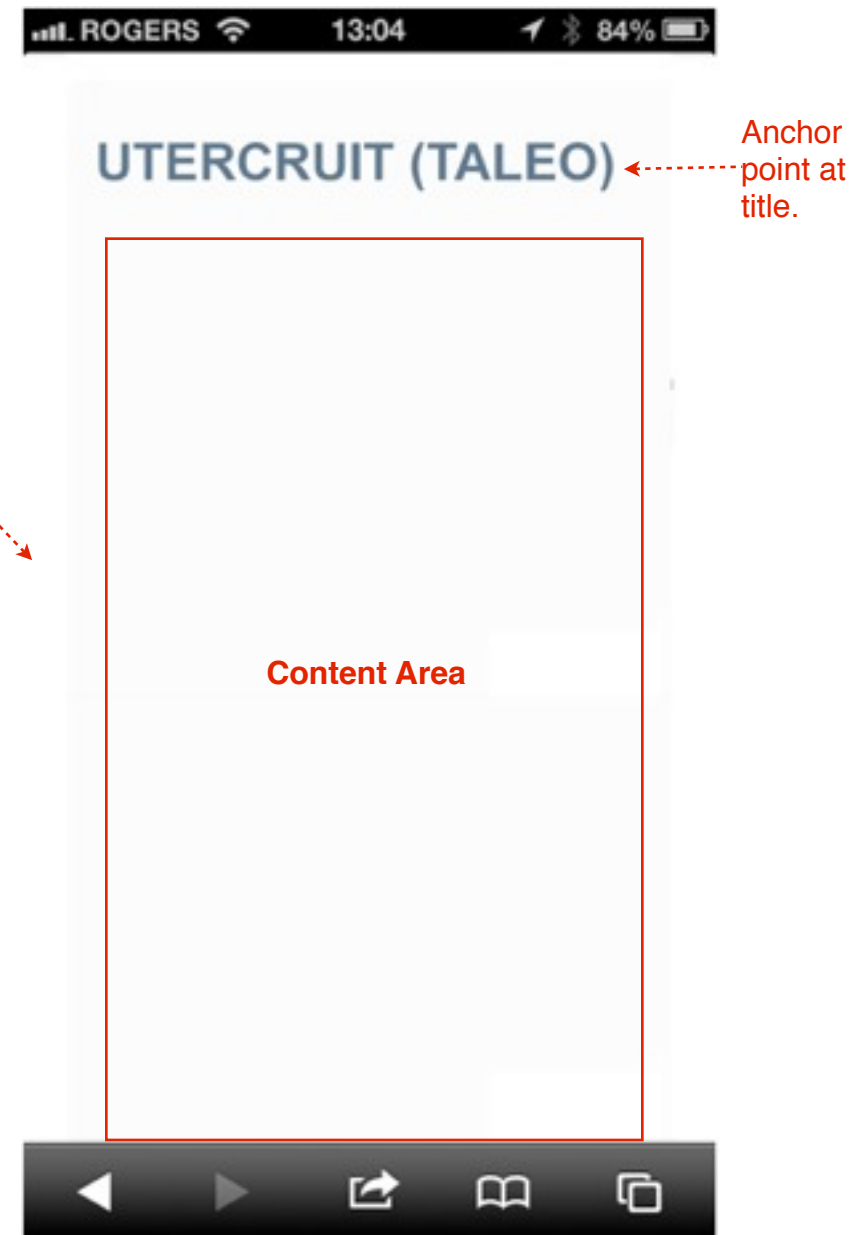

URL : main.its.utoronto.ca/its-units/easi/

URL : http://main.its.utoronto.ca/its-units/easi/hr-information-system/utorecruit-taleo/

Notice level 2 links (parent page) are **NOT** visible in the menu section from within the level 3 link page. Use **anchor points** to bring the user to the selected content

Anchor point at title.

Content Area

Click on any link in the secondary navigation to take you to a page formatted like the one on your right. URL provided above

4) DELIVERABLE FOR qa.its.utoronto.ca - Please give us the CSS and or the HTML for the indicated areas below so we can have a developer make the changes

URL : qa.its.utoronto.ca

4 The carousel should have 4 "News" items just like the main site i.e. **main.its.utoronto.ca**

Example on next page

4) CATALOGUE FRONT-END CHANGES - **EXAMPLE ON URL PROVIDED BELOW**

URL : main.its.utoronto.ca

4 Example This is the exact desired implementation for the carousel Including: **4 news Items**, the **label font**, and the **blue highlight** all of which we would like to have implemented exactly like this.

Thus we need the CSS and or HTML code for this feature

5) 2ND DELIVERABLE FOR qa.its.utoronto.ca- **Please give us the CSS and or the HTML for the indicated areas below so we can have a developer make the changes to the resizing feature similar to what we have on main.its.utoronto.ca which you guys implemented.**

URL : qa.its.utoronto.ca

All the fonts on items with green dots should be resized by the resize buttons
